

THE PAPER LABYRINTH

The Paper Labyrinth has had a few minor updates since its first release in 2019.

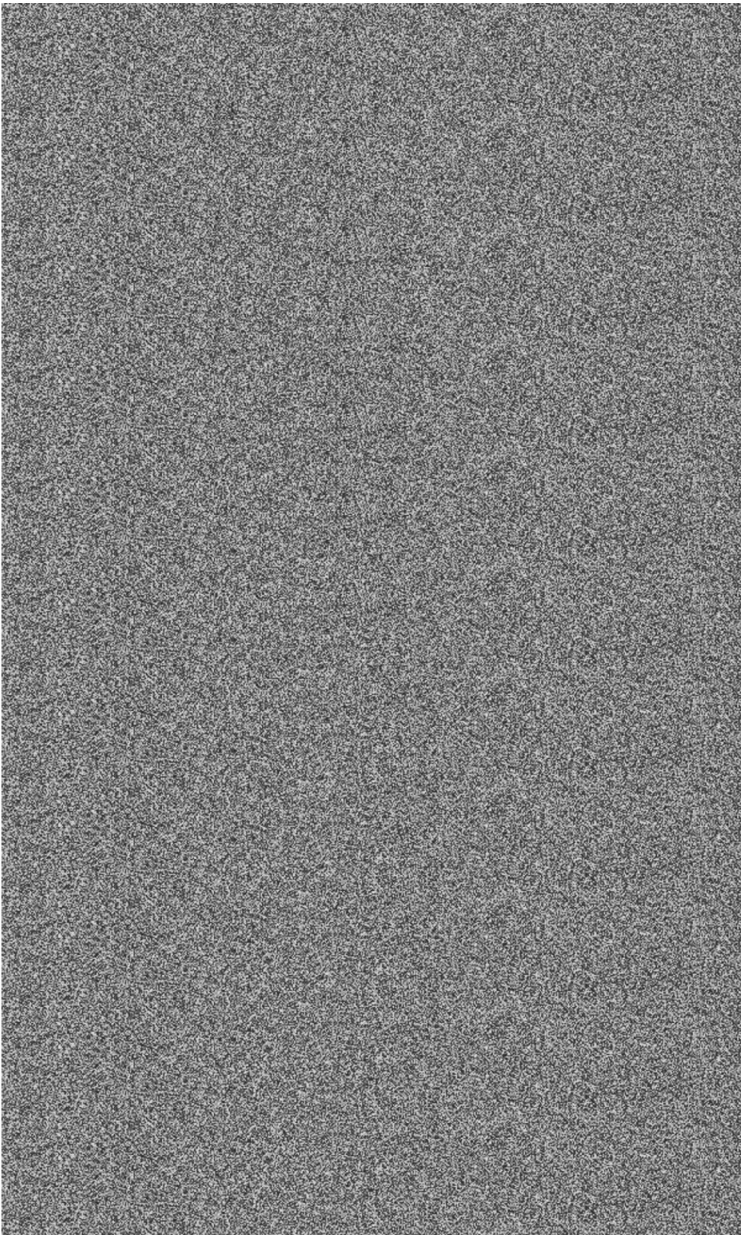

Most notably the first and last pages of the book (10 and 132).

Originally the book contained 'magic eye' stereogram puzzles, but some players struggled with them - so they were replaced in 2020.

In 2022, these two pages (as well as two others) were updated.

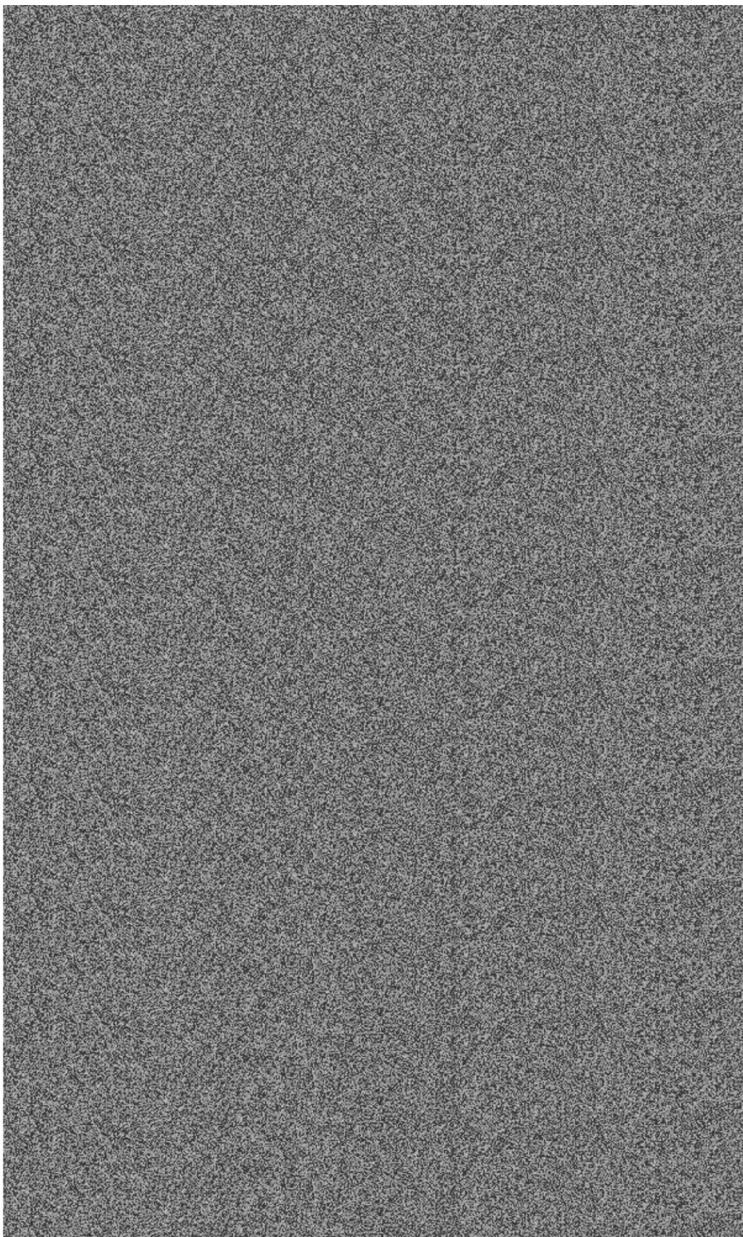

Here is a collection of both these new pages and the originals!

Enjoy!

New p.132
2022-

The writing of the alphabet is a costly business.

*To pay for a simple capital A costs 3 coins,
as three straight lines complete it.*

*A simple capital R costs 4 coins, two straight lines
and one curved one.*

If my word cost 14 coins, broken up like so:

3 - 4 - 4 - 3

what would my word be?

(There's just one curve in the whole word.)

> 1	<i>I am less than thirty.</i>	<i>I am even.</i>
<i>I am a whole number.</i>	<i>I am prime.</i>	<i>I am square.</i>
< 27	<i>I am not four.</i>	<i>On a dice.</i>

*Four letters has this solution.
 Statements in the segments above that
 ring true for each of the numbers below
 will form the letters that you need.*

Letter One = 4

Letter Two = 2

Letter Three = 13

Letter Four = 25

RABBIT FESTIVAL - EMERGENCY UNIT

BANQUET - NAUGHTY WORD

RISING AGENT - QUESTION
